

## Jaguar V from GCC High-Performance Vinyl Cutting Plotter

The Jaguar V from GCC is a high-performance cutting plotter designed for precision contour cutting and professional signage production. Engineered for speed, stability, and long-tracking accuracy, it delivers clean and accurate cutting across vinyl, reflective films, heat transfer materials, stickers, and graphic applications. Combining intelligent contour detection, reliable servo motor performance, and user-friendly operation, the Jaguar V is ideal for sign-making, vehicle graphics, print finishing, and commercial production environments.

### Key Features

#### Precision Contour Cutting

Advanced contour-cutting technology ensures accurate alignment and clean finishing for printed graphics, decals, labels, and signage applications.

#### Advanced Media Tracking System

Provides stable long-length media feeding with improved tracking accuracy, minimizing alignment errors during extended cutting jobs.

#### High-Speed Servo Motor Performance

The servo-driven motion system delivers smooth operation, faster cutting speeds, reduced noise, and enhanced cutting precision.

#### Wide Material Compatibility

Supports vinyl, reflective films, heat transfer media, window graphics, stickers, and various signage materials for versatile production applications.

#### Reliable Commercial Production

Built for continuous production environments with stable operation, dependable accuracy, and reduced maintenance requirements.

#### Efficient Contour Detection

Integrated alignment sensors improve contour-cutting accuracy for printed graphics and complex design applications.

### Use Cases

- Vinyl Lettering & Decals
- Vehicle Graphics & Wraps
- Heat Transfer Applications
- Reflective Signage
- Sticker & Label Production
- Window Graphics & Branding
